Kurt Gwin	Tallmadge City Schools		
Matt McGing	Twinsburg City Schools		
Eric Unangst	Woodridge Local Schools		

Items Discussed

- The October minutes are on the NEOnet website.

NEOnet Network

- Lightspeed upgrade cancelled- There are bugs with the new code. Holding the upgrade until December is what is best at this time.
- Cisco Prime upgrade completed- Cisco Prime was updated in October. We are going to start to move toward a virtual controller deployment for all customers. This will provide additional

distributed administration capabilities. Schedule a training with Ben Heller (heller@neonet.org) if you need training on the new interface.

- Symantec group purchase- It's also that time of year again for the annual group purchase of Symantec Endpoint Security. If you already participate, renewal quotes will be sent out for the existing license count. To join the program, or add more licensing, please send an email with the number of licenses you are interested in obtaining. The final purchase orders will be sent to the reseller on November 30th. If you wish to participate, please get your POs to NEOnet no later than November 25th.
 - New License Cost - \$12.60 (for quantity greater than 250)
 - Renewal License Cost - \$4.35
- Cisco group purchase- It is also the time of year for the annual group purchase of Cisco maintenance. If you already participate, NEOnet will be sending out renewal quotes for existing equipment in the coming weeks. If you want to join the program or add items to an existing agreement, please send a spreadsheet containing the device type and the serial number of the device to zolla@neonet.org. The purchase will be completed just before the end of the calendar year, so if you are interested in obtaining a quote for equipment please send it in as soon as possible.

The next Technology Advisory Committee Meeting is scheduled for Thursday December 1, 2016 at 9:00 a.m.
