

DASL Admin. Roundtable
April 20, 2017
10:00 AM – 11:30 AM
Room B

- Welcome
- Current DASL Issues/Updates
 - DASL Open Defect Report – Defect Report since last roundtable is posted on website [here](#)
 - Prior Releases-
 - School Absences**- Bug fix with absence date range is fixed
 - Phase 2 Grad Points** (several fixes and enhancements added over the last few months of releases. All will be explained in the Grad points training, but here are few large one to mention today)
 - On the Student Exemptions / Requirements screen, the following exemptions are now read-only: Economics and Financial Literacy, Fine Arts, and Physical Education. Grad Points now uses the values from the FN-Graduate tab. Depending on your districts access granted to users, it is going to need to be a team effort to get these values checked and make Grad Points look correct. Also keep in mind Profile Bulk Update can be used to update these fields.
 - A nightly calculation is ran to calculate everyone's grad points and/or the click the 'Check for Updated Information button'
 - 2017 Requirements tab now displays for students who are graduating in 2017
 - JVS tab for districts that have District Trusts setup
 - New Graduation Points Search page
 - Civil Rights** Both Part 1 and Part 2 are now available to run. Part 1 came out in early March, if you ran it and uploaded before the 16.3.4 release came out very late March, the 16.3.4 release included bug fixes that we suggest you re-run your Part 1 and fix in the CRDC website. Be sure read the instructions in the Help Documentation. Especially if you are doing the .csv export as the instructions include how to change your IRN to your NCES code.
 - Medicaid Roster**-District Roster for Medicaid Billing (Management>Import/Export>District Roster for Medicaid Billing) in the 16.3.4 release now moved this report into the Special Services product. The vendors are now requesting more data on these students which is better populated from the SPS program. The link will not be removed from DASL because there are districts in Ohio that do not use SPS so they will still use DASL.
 - *Also this is not to be confused with the MER (Medicaid Eligibility Rate) report which will still be ran in DASL.

- Upcoming Releases-

For what is coming out in upcoming releases you can find the document on our website [here](#)

- Mobile App- Discipline

In December Phase 2 of the Mobile App was released to include Discipline. You can now view a student's discipline incidents or add new incidents via the Mobile App if you have appropriate discipline access in Student Information. You can [click here](#) to see the new Mobile App screens. There are two ways to enter an incident a) from the students' page b) from Discipline Incidents page

- New Assessment Extract

New screens to help you extract student assessment data, email to a different district, and then they can import. Examples can be used for a student transfer between districts, a group of students at the beginning of the year, or home schools to JVS or vice versa. [Click here](#) to see screen shots of the new screens. If you need help please contact student services.

- Ad Hoc Reporting Update

1. Ad Hoc Reporting is the new(er) reporting tool option in Student Information.

Reports being created by State, NEOnet, and users can create their own.

Paper Icon

Local-Ad Hoc Reports

2. Discussion around the state about security. I did not hear it as much in the trainings I did. But a lot of districts wanted users access to the reports under the folder, but not to the views under that same category to create their own reports.

3. Much anticipated document that lists a) all the reports that are out there and what data they provide b) a list of the tables/views that you can pull and create your own reports

It can be found three places: NEOnet website-Services-DASL-Report Listing

In DASL its on the front page under Announcements

In DASL under the ?Icon-helpful Hits-Ad Hoc reports- View Information and Report List

4. Show and explain the tables/view part of documentation

StudentMISCdata view NEW!

5. The list of reports is getting long. I understand it is hard to find and remember what they do. Please do not hesitate to ask us if there is already an Ad Hoc report out there that will get the data you need.

We are trying to use our Monthly Updates as opportunities to communicate new interesting reports and what they can provide you.

6. Some cool reports that have been released since last time we met:

Daily Attendance Detail

Discipline By Ethnicity Count

Discipline Actions for Spec ED

Students Without Discipline

Immunization Matrix

Student Immunization Summary

*End of Course Evaluation
End of Course Performance Summary*

- **HB410- Truancy Change-**

[This handout](#) summarizes the proposed changes for truancy reporting and House Bill 410. We are still awaiting confirmation on what will be required for ODE reporting. Once confirmed Software Answers will work on if any changes will need to be made to the Student Information application.

A second bill that has come across our desks is proposed changes to Senate Bill 82.

[Here is a link of the proposed changes.](#)

Just a note if you use a vendor to send automatic attendance calls to parents and your time needs to be changed if this law passes please work with NEOnet Student Services as soon as possible.

- **End Of Year Handout** [Tips and Tricks for End of Year](#)

- **Training Opportunities-** *All opportunities are available to sign up on our website [here](#)*

- Ad Hoc –Beginner and Advanced
- Grad Points
- EMIS Exceptions for 17/18 calendar
- Open Labs- *For summer Open Labs some suggestions to consider: review security and staff members, student status codes, attendance codes and Family Groups*
- Elementary Scheduling & Work Sessions
- Back to School
- DASL Overview
- Medical
- Suggested trainings from districts:
*Assessment(testing) training for guidance and EMIS coordinators
Secure Data Center
Excel, Word, or Pages, GoogleSheets, Logical File Management*

- **DASL District Sharing-**

*Question was asked by district: Since all Juniors are required to take ACT or SAT this year, will the vendors be providing a file to upload? Or will it still be hand entered if you did not request a file? Stow already receives a file so they got theirs. But if you don't normally receive and uploaded file will you still get one?
Please let NEOnet know as soon as anyone finds out!*

Security forms for just DASL Administrators.

EMIS End of Year meeting may be after you Power Withdraw your seniors. Make sure to read the instructions before doing this powerful tool.

- Next Meeting Date/Time – September 26, 2017

- Action Items

Include the link to the comma separated website: When using Student ID Entry to create your Ad Hoc Membership try using an Excel formula or this website to take a list of student ID's and make them comma separated: <https://convert.town/column-to-comma-separated-list>

Make sure Software Answers knows the importance of the ER to upload AP Exams.
