

## Mobile App

Medical, Custody and Disability alerts are now available to view in the mobile App

### Student's Alerts

Note: You can only view a student's Medical, Custody, and Disability alerts if you have the right security settings. If you believe you should be able to view the student's alerts, contact your school or district administrator to ensure you have the correct permissions

- To view Custody Alerts, the role(s) assigned to the user must have Display enabled for "SIS – Student – Custody Alert."
- To view Disability Alerts, the role(s) assigned to the user must have Display enabled for "SIS – Student – Disability Alert."
- To view Medical Alerts, the role(s) assigned to the user must have Display enabled for "SIS – Student – Medical – Medical Alerts."

## Enhancements for 17.2

### Message Prompt

- The default school selection prompt that displays when a user logs in for the first time has been updated.

### Voice Command

- The MobileApp now supports voice commands; once you enable the feature, you can tap , ask a question (e.g., is Allen Jones sick today?), and the relevant student information displays.

### Student Transportation

- On the student's Profile screen, if you have the proper permissions in SIS, you can now view the student's available transportation data.
