

VirtualClassroom is a web-based learning management system (LMS) that is integrated with GradeBook. It easily aligns with Common Core and State academic standards and provides the ability for blended learning. Because it is seamlessly linked to GradeBook, you can manage online assignments and grades in a single location.

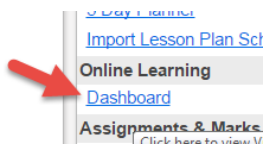

Benefits of VirtualClassroom

- No additional URL's or Logins/Passwords for Teachers, Parents or Students
- True Blended learning (Traditional paper/Online assignments)
- Student responses automatically post to teachers GradeBook and back to Students/Parents

1) Easy Access

Teachers: GradeBook > Teacher Home Page > Online Learning > Dashboard

Students: Use current GradeBook Student Account

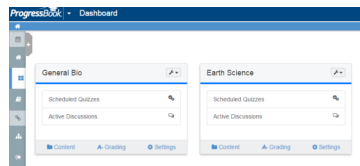

2) Dashboard

Access to Courses, Activities, Grading, Settings

Create new courses or import from the library

Grade activities including Tests/Quizzes/Homework/In-class Work/Discussions

Post graded work directly in GradeBook

3) Courses

Courses can be linked to one or more gradebook classes for content

Quizzes/Tests/Discussions/Resources can be organized and shared

View detailed results in which areas and at which standards

Can create/share with district or purchase complete courses
